Maundy Thursday, the crux of Christ by the cross on Good Friday, and then the miracle of the Resurrection on Easter Sunday.

I've said this before in Bible Study and a handful of sermons - if you are going to worship only once a year, that event is Good Friday. Weird, right? We put a great deal of importance on Christmas and Easter, and rightfully so for they are truly important and wonderful times to worship. But Good Friday is the day that matters. It's the day when God's incarnation into our humanity was complete - in Christ, God did not just experience birth & life, but also your death (particularly, yours).

Come and worship this Holy Week - dwell in the story of God's promise of life, death, and new life for you. We begin worship in the Passion of Our Lord on Palm Sunday, moving into Jesus' most profound teachings on

Spring Cleaning is around the corner! As you go through your items, please consider saving some of them for the 2019 Auction! New this year, we will be separating the larger items from the smaller items, putting minimum bids

on higher value items and selling the smaller items at a flea market while the auction is underway. The auction will be in the same vendor building it is always in and the flea market will be in the building where Faith has been doing Bingo during the Fair. All proceeds for both the auction and the flea market will go to the general fund. If you have any questions or have something to donate, please contact Cliff or Carol Schulz or Suzi Limberg. Thank you!

+Christian Symbol+

Calvary Cross (Graded Cross)

This Latin cross with three steps symbolizes both Jesus' climb up Calvary's mountain and the three gifts of faith, hope and love. Those gifts are intrinsically connected to Jesus' death and resurrection and are ours by sheer grace. "And now these three remain: faith, hope and love. But the greatest of these is love" (1 Corinthians 13:13, NIV).

### FLOOD SAFETY TIPS

Spring is finally on its way! With all the snow melt we have had many flood watches and warnings. Here are some tips to consider: (from CDC website)

There are more deaths that occur due to flooding than any other hazard. The most common flood deaths occur when a vehicle is driven into hazardous floodwater. Fortunately, you can take steps to protect yourself, your family, and your home.

#### During a Flood Watch or Warning

- Gather emergency supplies.
- Listen to your local radio or television station for updates.
- Have immunization records handy (or know the year of your last tetanus shot).
- Store immunization records in a waterproof container.
- Prepare an emergency food and water supply. Store at least 1 gallon of water per day for each person and each pet. Store at least a 3-day supply.
- Bring in outdoor possessions (lawn furniture, grills, trash cans) or tie them down securely.
- If evacuation appears necessary: turn off all utilities at the main power switch and close the main gas valve.
- Leave areas subject to flooding: low spots, canyons, washes, etc. (Remember: avoid driving through flooded areas and standing water.)
- After you return home, if you find that your home was flooded, practice safe cleaning.

#### After Flooding Occurs

- Avoid driving through flooded areas and standing water. As little as six inches of water can cause you to lose control of your vehicle.
- Do not drink flood water, or use it to wash dishes, brush teeth, or wash/prepare food. Drink clean, safe water.
- If you evacuated: return to your home only after local authorities have said it is safe to do so.

- Listen to water advisory from local authorities to find out if your water is safe for drinking and bathing.
- During a water advisory, use only bottled, boiled, or treated water for drinking, cooking, etc.
- When in doubt, throw it out! Throw away any food and bottled water that comes/may have come into contact with floodwater.
- Prevent carbon monoxide (CO) poisoning. Use generators at least 20 feet from any doors, windows, or vents. If you use a pressure washer, be sure to keep the engine outdoors and 20 feet from windows, doors, or vents as well.
- The initial damage caused by a flood is not the only risk. Standing floodwater can also spread infectious diseases, bring chemical hazards, and cause injuries.
- Remove and throw out drywall and insulation that was contaminated with floodwater or sewage. Throw out items that cannot be washed and cleaned with a bleach solution: mattresses, pillows, carpeting, carpet padding, and stuffed toys.
- Homeowners may want to temporarily store items outside of the home until insurance claims can be filed. See recommendations by the Federal Emergency Management Agency (FEMA)
- Clean walls, hard-surfaced floors, and other household surfaces with soap and water and disinfect with a solution of one cup of bleach to five gallons of water.

Have a blessed and safe spring!

Respectfully Submitted,

Your Parish Nurse

## What Easter does

Jesus' resurrection from the dead is life-changing and life-giving for his followers. But, as Henry Knox Sherrill notes, Easter's "joyful news ... does not change the contemporary world." On earth, we still must deal with sin, pain, death and brokenness. And "still before us lie work, discipline, sacrifice," Sherrill adds. What Easter does, though, is provide Christians with "the spiritual power to do the work, accept the discipline and make the sacrifice."

By defeating the grave, Jesus empowers us to bear our worldly troubles with joy, peace and hope. His resurrection assures us that trials, tears and suffering are only temporary, while eternal victory and life with Jesus are permanent.
